Retain original (source) grower information for associa	ated data and reports (Product Use Reports, Recommendations, Application Events)
Cummons of Antion	
You are moving land elements to another grower. Che	sok the box above if you wish to retain your current grower information on existing repor
recommendations, etc. (Note: ele	aments can only move laterally among growers; no promote/demote).

\*\*By placing a check mark to "Retain original (source) grower information for associated data and report" this will keep the original grower's name with the moved information. By leaving this UN-checked, the grower information will be changed to the new grower that the field was moved to.
